

Guide

How to Use?

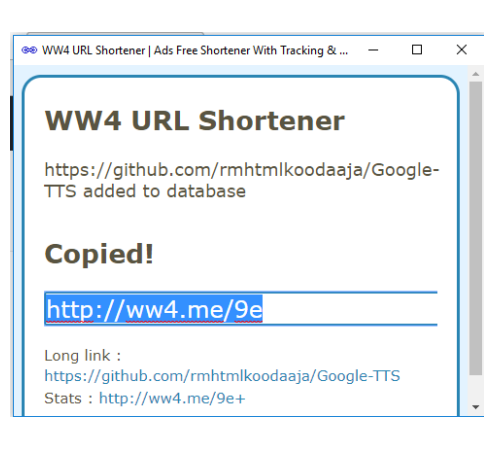

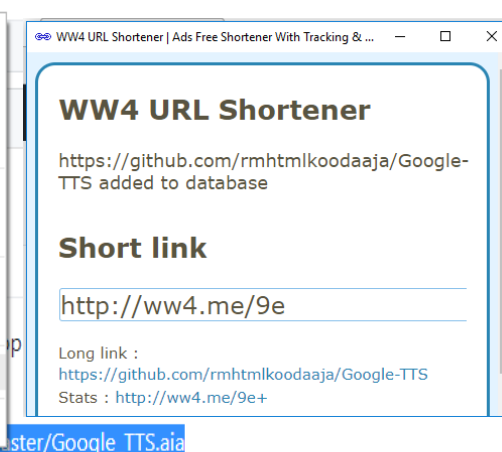

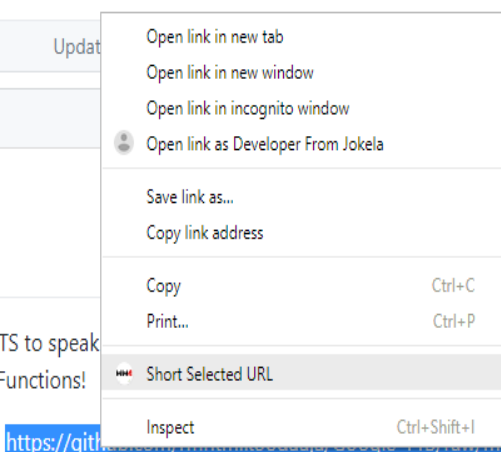

1.

Right Click Everywhere in opened tab and Select Short This Website's URL. It opens Pop-Up where is your Shorted Link. Then Click the Shorted Link, and it's on your clipboard. After this, you can paste it anywhere or send it to your friends.

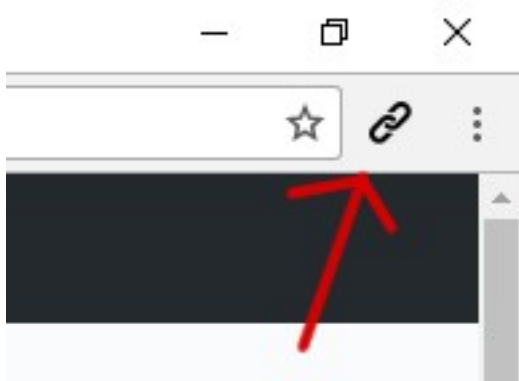

2.

Select URL On any WebPage and Right Click. Then select Short Selected URL and Follow same steps in previous Guide.

3.

Click Icon in Your Browser:

Then it opens popup. Paste Your link into Long Link Textbar. If you want, set name for your shorted url. Then Press Short. And You Get The Shorted Link.
